You can spend hundreds (if not thousands) of dollars on professional costumes and you will still have to alter them to get the right fit. Luckily there is a cheaper alternative, learn to make your own! Bead Your Bedlah will teach you to make your own bra and belt. In this workshop Huraiva will take you through the steps of converting a lingerie bra into a dance bra and the steps to create a dance belt.

We will start with the basics of sewing for those who aren't familiar with hand sewing. We will then do some basic beading techniques to help you build the skills to add some bling to your bedlah. After the basic skills we will move on to covering the bra and finally the construction of the belt.

A detailed list of supplies will be emailed once I have your registration.
